EDUCATION

New York University, Master of Science, Integrated Design & Media Expected: Jul. 2027

- *Main Courses: Ideation & Prototyping, Creative Coding, Dynamic Web, Deep learning with Media, Animatronics*

Communication University of China, B.F.A. Visual Communication Design (Advertising Design) Jul. 2025

- Average: 91
- GPA: 3.75 / 4.0
- *Main Courses: Design Theory, Visual Communication Strategy, Typography Design, Creative Interaction Design and Technologies, Advertising Psychology, Media Design, Multimedia Technology and Application, Studio Photography*

Educative.io's Jun. 2025

- *Courses: Python for Programmers*

TECHNICAL SKILLS

Programming Languages: P5js, React, HTML, CSS and JavaScript, Python

Tools: Figma, Adobe Photoshop, Illustrator, Indesign, Premiere, After Effects, Unity, Blender, TouchDesigner, Processing, GIT, Arduino IDE

PROFESSIONAL EXPERIENCE

Design Intern, Beijing Gehua Design Co., Ltd.; Beijing, China Jan. 2025- Feb. 2025

- Proposed and refined interactive NPC storylines, enhancing character depth and user engagement in the “京师万象图 (Panorama of the Imperial Capital)” project.
- **Assisted in redesigning audience interaction flows** and institutional onboarding processes, **improving usability and participation experience**
- **Created peripheral cultural product designs**, integrating intangible heritage elements into modern visual language.

UI & UX Intern, National Center for Educational Technology; Beijing, China Jun.2024 - Aug.2024
(Education Supervision and Guarantee Service Department)

- **Redesigned the information architecture and user interface** of the National Extracurricular Education Training Supervision and Service Comprehensive Platform, restructuring core navigation and workflows.
- **Conducted user research and interviews** with three groups—public users, internal regulators, and institutional partners—and redesigned key pages to address user pain points and critical touch points.
- Benchmarked government and educational websites to **redefine the platform's visual language**, balancing official authority with an approachable educational tone.
- Built interactive prototypes, **refined UI components**, and collaborated with cross-functional teams to ensure design feasibility, delivering the final report and brand guidelines.

PERSONAL PROJECTS

Hidden Names; AR Participatory Exhibition Dec. 2024

- **Investigated marginalized female historical narratives** and translated findings into an **interactive storytelling experience**
- **Designed AR-enabled participatory exhibition** integrating physical identity stickers with digital character unlocking
- Developed interaction flows fostering empowerment and community dialogue

VitaFood; Interactive Concept Service Design Nov. 2024

- Conducted research on global micronutrient deficiency and **identified public awareness gaps**
- **Designed a cross-channel service ecosystem** integrating **food packaging, supermarket spatial intervention**, and a **dietary tracking app**
- Developed user journey maps and service blueprints connecting offline and digital touchpoints
- **Established brand strategy** promoting sustainable dietary behavior change

Mindset Penalty; Interactive Wearable Installation May. 2024

- Explored sociological implications of school uniform systems through critical design methodology
- **Designed and prototyped wearable** and spatial installation simulating behavioral restriction
- Translated theoretical research into **embodied interactive experience**
- Examined relationship between physical control and cognitive conformity

Pei Xiao Zhen - Medical Companion Booking Platform; Website Design, Teamwork May. 2023

- **Conducted user interviews and competitive analysis** to identify elderly patients' challenges navigating medical systems
- **Redesigned information architecture** and booking flow to simplify healthcare access
- **Iterated interface design** based on usability feedback and Google Analytics insights
- Contributed to visual system and interaction patterns within interdisciplinary team

The Dice; Product Design, Teamwork Nov. 2022

- **Researched accessibility barriers** faced by visually impaired women in feminine hygiene product usage
- **Designed tactile and high-contrast packaging system** to improve usability and disposal experience
- Explored material textures and structural form to enhance non-visual interaction
- Advocated inclusive design principles through research-driven product development

EXTRACURRICULAR ACTIVITIES

Web Art as Site Workshop, New York University (Online) Aug. 2024 - Sep. 2024

- Learned basic web development skills, such as html, css, and Javascript, to make web art.
- Familiarized with the history of web art development.

User Experience Design Workshop, Savannah College of Art and Design (Online) Oct. 2023 - Nov. 2023

- Learned the research methods of analyzing user groups and opportunities.
- Familiarized with the interactive design workflow, including user research, app design, etc.

Student Union of Communication University of China Sep. 2021 - Sep. 2021

Member of External Relations Department

- Responsible for event planning, securing sponsorships, managing supplies, execution, etc.
- Invited alums and experts, enhancing the competition's professionalism and impact.
- Organized large-scale events, such as The 18th Capital University "The Elegant Star" Selection Competition.
- Coordinated with interdepartmental requests and facilitated communication between universities.

Montmartre in Dingfuzhuang, Campus Sketch Portrait Flash Art Event Oct. 2021

Member of Organizer & Host

- Coordinated with the venue arrangement and established a detailed activity schedule.
- Provided administrative support during events, including setup, registration assistance, and on-site coordination.
